

OFFICE SHREDDER

2331

Centralised office shredder with a feed opening of 310 mm and a high shred bag volume. Powerful and particularly safe with the electronically controlled safety flap as part of the SPS safety package. EASY-SWITCH guarantees easy and intuitive operation.

EBA 2331 S | C

With 310 mm feed opening suitable for A4 paper sizes widthwise and lengthwise or A3 sizes lengthwise. SPS – (Safety Protection System) package: patented, electronically controlled, transparent safety flap in the feed opening as additional safety element; EASY-SWITCH – intelligent control element indicating the operational status of the shredder with varying colour codes and back-lit symbols; automatic reverse and power cut-off (avoids paper jams); automatic stop if the shred bin is full; electronic door protection via a magnetic proximity switch; double motor protection against overheating; ZERO ENERGY CONSUMPTION: Complete, automatic disconnection from power supply after 30 minutes. Automatic start / stop via a photo cell in the feed opening. ECC – Electronic Capacity Control: patented indication of the used sheet capacity during shredding process. High-quality cutting shafts from special hardened steel; Lifetime guarantee under conditions of fair wear and tear. Suitable for safe shredding of the most common CDs and DVDs. Powerful 640 Watt single phase motor for continuous operation. Sturdy "Twin Drive System" with fully closed gear box housing. High-quality wooden cabinet with a cabinet volume of 140 litres. Movable on castors. Environmentally-friendly shred bin with 120 litres volume for the shreds (no disposable shred bags required). Attractive colour combination silver / dark grey. Quality "Made in Germany".

The technical data is approximate. Subject to change. 03/2013

Robust and durable: High-quality paper clip proof cutting shafts from special hardened steel. Lifetime guarantee on the cutting shafts under conditions of fair wear and tear.

EASY-SWITCH: intelligent multifunction switch element with integrated optical signals for the operational status of the shredder.

Outstanding safety features: SPS includes an electronically controlled, patented safety flap in the feed opening.

ECC Electronic Capacity Control – LEDs indicate the used sheet capacity during the shredding process to avoid paper jams.
